

# Milavanda

Traditional taste from Aegean Bay

## MILAVANDA.

The ancient Ionian town, located in the Aegean coast of Anatolia. The city where olive oil was valued and produced for centuries. Inspired by this history, we bring you the traditional taste of Aegean olives.

## NATURAL & GENUINE

Olive and Olive Oil are the most magical and valuable natural creations available on earth to be the symbol of life's re-new and celebration since ancient human cultures in poems and fair tales... A 'Gold Essence' gift of God for blessing humanity. With this awareness, we remind ourselves to be the protector of what nature gives us. We pursue naturalness and real taste at every stage of production.

## HEALTHY AND FULL OF FLAVOR.

Its content is rich in antioxidant and polyphenol amounts which are essential for body health. The flavor is as enriched as the variety offered by nature.

To do this, from the greenest gardens at the Aegean coast, the best olives are carefully picked while they are still lush and not fully ripened.

Early harvested, unripe olives are immediately bottled and are not subjected to any chemical process.

Milavanda is in your kitchen with  
full of health, life and energy

## SPECIAL SERIES EARLY HARVEST EXTRA VIRGIN OLIVE OIL

Before the production of Special Series Olive Oil in Milavan, Ayvalık gardens, which do not use chemical fertilizers and pesticides in September-October, have not yet ripened, fallen to the ground, and the best top olives of their branches are selected. Olives that are not exposed to any chemical processes that are harvested early are squeezed by cold pressing method at 26 degrees in an oxygen-free environment and bottled without losing time. Milavanda Special Series Olive Oil has a pleasant fragrance that smells the Aegean Sea iodine and resembles the smell of fresh leaves that have absorbed the Aegean Sea.

Its aroma is sharp and moderately caustic, with scents of freshly mown grass, almond, cress, arugula, fresh walnut, green tomato and green plum. It has a heavy fluid consistency, dark green color and very strong.

It is drinkable, can be used in all hot and cold dishes, salads. Acid rate is at most 0.8%.

## ARBEQUINA EARLY HARVEST EXTRA VIRGIN OLIVE OIL

Before the production of Arbequina Olive Oil in Milavan, Ayvalık gardens, which do not use chemical fertilizers and pesticides in September-October, have not yet ripened, fallen to the ground, and the best top olives of their branches are selected. Olives that are not exposed to any chemical processes that are harvested early are squeezed by cold pressing method at 26 degrees in an oxygen-free environment and bottled without losing time. Milavanda Special Series Olive Oil has a pleasant fragrance that smells the Aegean Sea iodine and resembles the smell of fresh leaves that have absorbed the Aegean Sea.

Its aroma is sharp and moderately caustic, with scents of freshly mown grass, almond, cress, arugula, fresh walnut, green tomato and green plum. It has a heavy fluid consistency, dark green color and very strong.

It is drinkable, can be used in all hot and cold dishes, salads. Acid rate is at most 0.8%.

## TRADITIONAL TASTE.

Milavanda is inspired by the genuine taste of olives grown with the unique wind, water and air of the Aegean Region.

With the eagerness to bottle the scent of the trees that have grown in the same quality for centuries, also desires to see this traditional taste at the heart of every kitchen.

Milavanda offers you premium natural olive oil with a very low acidity level and high nutrition properties.

# The Real Taste of Aegean Sea...

## MEMECİK EARLY HARVEST COLD PRESSED NATURAL EXTRA VIRGIN OLIVE OIL

Milavanda selects best olives from the gardens of South Aegean bay. Inspired by the traditional taste of Aegean Bay, we are rooted in quality and authenticity. Appreciating nature and its gifts is our primary concern. We try to preserve the unique flavor of the area, and so we collect when olives are still green, during the early harvest season on September and October. We prefer cold extraction method, and always avoid chemical methods. Our extra virgin olive oil is obtained directly from olives and solely by mechanical means. With the unique climate of the Aegean region, we produce fruity, green, peppery, aromatic and healthy olive oils. You can use our olive oil for cold and hot foods. It has a maximum acidity of 0.8%.

# EDREMIT EARLY HARVEST COLD PRESSED NATURAL EXTRA VIRGIN OLIVE OIL

Milavanda North Aegean Extra Virgin Olive Oil is made from well-selected olives from the gardens of North Aegean bay. Inspired by the traditional taste of Aegean Bay, we are rooted in quality and authenticity. Appreciating nature and its gifts is our primary concern. We try to preserve the unique flavor of the area, and so we collect when olives are still green, during the early harvest season on September and October. We prefer cold extraction method, and always avoid chemical methods. Our extra virgin olive oil is obtained directly from olives and solely by mechanical means. With the unique climate of the Aegean region, we produce fruity, green, aromatic and healthy olive oils. You can use our olive oil for cold and hot foods. Milavanda is perfect for dressings and for hot recipes. It has a maximum acidity of 0.8%.

## EXTRA VIRGIN OLIVE OIL

**PREMIUM EXTRA VIRGIN OLIVE OIL:** Milavanda extra virgin olive oil is produced from the greenest olive gardens of North Aegean Bay. Fresh Aegean sea iodine and sea winds offer the best environmental practices for the development of high quality olives. They have %100 natural taste that Milavanda consciously selects and produces for your kitchens.

**EARLY HARVEST:** Milavanda early harvest olive oil is made from the first press of olives that are still unripe and green in September and October. Pressing unripe olives yields less juice but also conserves the natural polyphenols found in olive oil. Milavanda presses its olives early

in the harvest season to ensure high levels of polyphenols are preserved.

**COLD PRESSED:** Milavanda olive oil is made when olives are pressed to produce oil without heat or additional chemicals at 26 degrees centigrade. When cold-pressed, the olive fruit will stay below 50 C (or 122 F). At this temperature or below, the properties of the oil don't get damaged. This allows more high level of oleic acid, nutrients, vitamins, healthy fats and antioxidants to be preserved. As a result, cold pressed olive oil usually has a superior taste and greater health benefits.

**SAFE FOR BABIES:** Milavanda Extra Virgin Olive Oil is naturally rich in

vitamins A-E-D-K and is high in brain-building fatty acids omega 3-6-9 that help your baby grow healthy and strong. It is a nutritious and safe complementary food that has the similar important components found in breast milk. It has a very gentle formula to help for easy digestion and strengthens baby's own immune system. You may add this olive oil to any of the baby food recipes. Good for infants from 7 months. To ensure appropriate nutritional composition and safety of foods specifically manufactured for infants and young children, we are certified by FSSC22000 according to Foundation for Food Safety Certification.
