HERITAGE

A young entrepreneur and a revolutionary scientist, Ph. Niyazi KurtSan, planted the seeds of 'KurtSan' at a compact pharmacy in İstanbul, 66 years ago with the vision of healing people through the power of nature. At a time when 'herbal medicines' and 'natural living' were just a dream to many, Ph. Niyazi KurtSan developed pharmaceuticals, remedies and cosmetics from the miraculous plants of Anatolia, Turkey.

Since 1955, Otaci has been a pioneer brand in the natural skincare, cosmetics and pharmaceutical world; the first ever herbal shampoo, first ever herbal throat lozenges and natural food supplements in its origin.

Otaci aims to protect human health through the healing power of nature. Our vision is to be a global brand that heals people with environment-friendly and high-quality herbal products inspired by nature.

Otaci is the reliable, premium, local and the most honest natural and herbal alternative to the daily ritual of all personal care&cosmetics.

Rosa damascena

The hills of Isparta in the Mediterranean are surrounded by a Cloud of excitement in the magical month of May. With the sunrise, farmers make their way to the beautiful rose gardens of Isparta, a town known as the Capital of Roses in the Mediterranean. They handpick every single one of the petals of the most delicate and valuable flowers, Mediterranean Rose, "Rosa damascena". Our delicate roses are rushed to our GMP approved pharmaceutical factory to create Otaci Rose Passion with the most valuable oils & extracts of the Mediterranean Rose, "Rosa damascena". Rosa damascena forms a herbalist's floral ritual to purify, revive and hydrate the face and body. Made from this Mediterranean Rose, a miracle treatment that is indigenous to the city of Isparta, Otaci's skin products naturally promote beauty through formulas that optimize cellular moisture, firmness, nourishment and softness.

Otal Face Tonic

Otal Face Tonic cleanses the skin deeply without drying it out. It helps to shrink the skin pores by tightening with the witch hazel hydrosol in its content. It refreshes the skin with the green tea extract in its content, helps to reduce the shining and control lubrication. Thanks to aloe vera, it moisturizes and smoothes the skin without stretching it. With aloe chamomile and geranium extract, it relaxes the skin and helps look healthy. Suitable for oily, porous and dehydrated skin.

Otal Cleansing Foam

Otal Face Cleansing Foam, thoroughly cleans dirt, oil and dead skin in the pores without drying it with its specially developed foam form. It helps to remove skin roughness caused by excessive sebum. It helps to purify the skin deeply, to reduce brightness and to take control of lubrication by means of green tea extract in its content. With aloe vera, it moisturizes and smoothes the skin without stretching. It relieves the skin and helps look healthy through daisy and geranium extract. It gives the skin softness, moisture and flexibility with aloe Provitamin B5 in its content. It is suitable for daily care and cleansing of oily and problematic skin that lost moisture.

Premium Herbal Shampoos

Otaci Lab No: 1

Hydration & Radiant Shine Shampoo

The sulfate free formula cleanses your hair gently, essential oils and healthy vitamins deeply moisturize and repair your hair, providing brightness and shine. Omega 3 and 6 Fatty Acids increase the moisture and elasticity of hair while repairing at the same time. Ylang Ylang and Sandalwood Essential Oils nourish the scalp, leaving hair with a tropical and deliciously sweet scent. Organic Coconut Oil and Vitamin B5 replenish brittle and damaged strands from root to tip, infusing hair with the moisture it needs for a naturally radiant shine.

Otaci Lab No: 2

Extra Fullness & Sheer Volume Shampoo

The sulfate free formula cleanses your hair gently and naturally, essential oils and healthy vitamins give additional volume and thickness to the hair. Rosemary, the century old symbol of healing and loyalty in Mediterranean civilization, energizes the scalp and regenerates and moisturizes the thin and flat hair. Vitamin B5 and yarrow extract nourishes the hair, encouraging hair growth with volumizing effect. The fresh, energetic and floral scent of geranium leave hair fresh and energizing.

Premium Herbal Shampoos

Otaci Lab No: 3

Frizz Control & Silky Straight Shampoo

The sulfate free formula cleanses your hair gently, essential oils and healthy vitamins put frizz at ease, making th hair smooth, silky and shiny. Organic aloe vera juice smoothes the hair, prevents frizz and the vegetable based keratin generated from pumpkin straightens hair. Vitamins B5 repairs the hair. Bergamot, geranium and peppermint gives your hair a fresh and floral scent.

Otaci Lab No: 4

Healthy Growth & Strength Shampoo

The sulfate free formula cleanses your hair gently, essential oils strengthen the thinning hair, prevents breakage and give your hair a healthy look. Biotin (Vitamin B7), the beauty vitamin, nourishes scalp and hair, supporting hair growth and fortifies the hair. Horse Chestnut and Zinc regulate excessiv sebum. Caffeine, a powerful antioxidant, helps hair growth and rejuvenate the air. Eucalyptus gives a fresh and cooling scent.

Indication:
Pediatric vasoconstrictor

- For the local treatment of nasal symptoms of the common cold, allergenic pollinosis and rhinitis.
- Topical nasal sinusitis decongestant to reduce inflammation and redness.

Food Supplements

OTAmaximun

ACTIVE INGREDIENT:

1 capsule contains 150 mg of Echinacea extract, 100 mg of Beta-glucan, 60 mg of vitamin C and 5 mg of zinc as an active ingredient (1 to 2 capsules per day are recommended).

Indication:

Echinacea extract strengthens the immune system against pathogenic infections through the activation of neutrophils, macrophages, polymorphnuclear leukocytes (PMN) and natural killer (NK) cells.

- The Beta-Glucan, a natural polysaccharide, affects the cytotoxicity of NK cells and the activation of macrophages as an immune system stimulator. The zinc has a function on cells which acts on natural immunity, such as NK cells and neutrophils.

Vitamin C promotes immune defense by supporting various cellular functions of the natural and adaptive immune system. It also supports the function of epithelial barrier against pathogens, while increasing the efficiency of oxidative cleansing of the skin. It thus offers potential protection against environmental oxidative stress.

OTAIMUFLU

ACTIVE INGREDIENT:

30 mg of Pelargonium Sidoides root extract, 64 mg of Sambucus Nigra extract, 240 mg of ginger rhizome, 60 mg of vitamin C (2 sachets per day recommended).

Indication:

The African Geranium has an immunostimulant effect (stimulating the immune system). It also has antiviral, antibacterial and antifungal effects. The Sambucus Nigra extract relieves symptoms of cold and flu, supports the resistance of the body with the vitamins that it contains. It has an antipyretic effect and offers benefits as an antioxidant agent.

The Ginger Rhizome has anti-inflammatory, analgesic, immunostimulant, antiemetic, bronchodilator and antioxidant effect.

Vitamin C promotes immune defense by supporting various cellular functions of the natural and adaptive immune system. It also supports the function of epithelial barrier against pathogens, while increasing the efficiency of oxidative cleansing of the skin. It thus offers potential protection against environmental oxidative stress.

OTAIMUZINC

ACTIVE INGREDIENT:

Sambucus Nigra extract 65mg, Vitamin C 60 mg, Zinc 0.18mg (4 lozenges a day is recommended)

Indication:

Sambucus Nigra extract alleviates cold and flu symptoms, increases body resistance with the vitamins it contains, has an antipyretic effect, and provides benefits as an antioxidant. Zinc is important for the normal development and function of cells that mediate innate immunity, such as NK cells and neutrophils.

Vitamin C contributes to immune defense by supporting various cellular functions of both natural and acquired immune system.

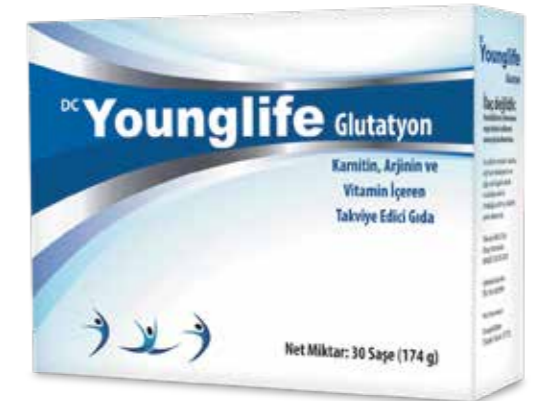

Vitamin C also supports the epithelial barrier function against pathogens, increases the oxidant cleaning efficiency of the skin. By this way, it provides potentially protection against environmental oxidative stress.

Younglife Glutathione

Food Supplement for Seminal Health with combination of Antioxidants and Aminoacids.

ACTIVE INGREDIENTS:

Glutathione, Carnitine, Arginine, Vitamin E, Vitamin C, Quenzim Q10, Beta Karoten, Vitamin B12, Zinc, Vitamin A, Vitamin B6, Vitamin D3, Folic Acid, Selenium
Form: 30 Sachets 174 gr

OTABIOTİN

Food supplement for strengthening hair and nails. Each capsule contains 2.5 mg and 5 mg of biotin (vitamin B7).

Forms: 2,5mg 60 Tablets
5mg 60 Tablets

Do you get sick often?

Otaci Echinacea Lozenges

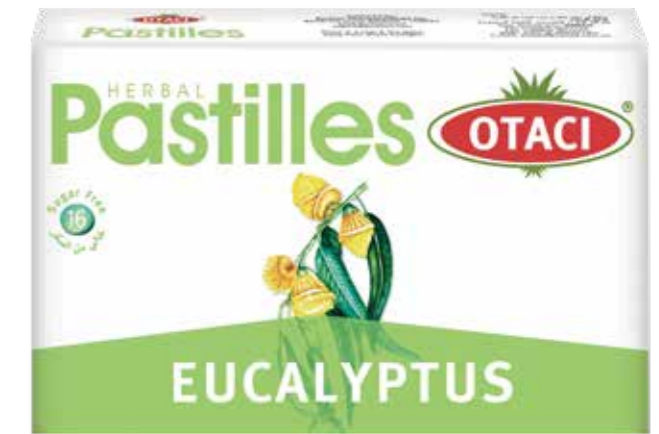

Echinacea helps prevent colds, coughs and upper respiratory infections by strengthening the immune system. Vitamin C helps increase the physical endurance of the body.

Do you have cough?

Otaci Eucalyptus Sugar-Free Lozenges

The Euca menthol and Euca menthol sugar-free lozenges have an antibacterial effect because of their Eucalyptol content. Its Coltsfoot content prevents coughing by increasing secretion.

Do you have hoarse voice?

Otaci Salvia Lozenges

The Salvia has an antiseptic function. It slows down the multiplication of bacteria in the mucosa membrane of the upper respiratory tract. It relieves throat mucosa thanks to its secretionfixing property and is effective in the treatment of hoarse voices.

Do you have expectoration?

Otaci Liquorice Lozenges

The Liquarice acts as an expectorant and helps soften the bronchia. It increases the secretion in the mucous membrane and eliminates the bronchioles to facilitate breathing.

Do you have cough?

Otaci Eucalyptus Lozenges

The Euca menthol and Euca menthol sugar-free lozenges have an antibacterial effect because of their Eucalyptol content. Its Coltsfoot content prevents coughing by increasing secretion.

Does your child have a sore throat?

Otaci Pastisin Kids Lozenges

It opens the respiratory airways and canals. It soothes sore throats, eliminates indigestion in children and makes breathing easier.

Stimmex Lozenges

It contains myrrh extract for voice relief.

Do you have throat ache?

Otaci Pastisin Ginger & Orange Lozenges

Ginger is a very strong antiseptic. It is effective in the treatment of coughs, colds and other diseases of the respiratory tract by warming and its soothing function. It frees the airways channels. It acts as an expectorant and cough suppressant.

Otaci Ginger Lozenges

Lozenges rich in vitamins with a fruity taste. Lemon, orange or strawberry flavor.

Do you have laryngitis or pharyngitis?

Septisil Honey Lemon Lozenges

Septisil lozenges help reduce the symptoms of upper respiratory tract infections by virtue of its antiseptic and local anesthetic properties. The Hexylresorcinol helps eliminate viral and fungal infections.

Do you have expectoration or sore throat?

Otaci Pastisin Linden & Honey Lozenges

Expectorant, effective in the treatment of upper respiratory tract infections. Linden is effective in treating coughs, and Honey is effective in softening the chest area.

Do you have canker & tonsillitis?

Septisil Black Mulberry Lozenges

Septisil lozenges help reduce the symptoms of upper respiratory tract infections by virtue of its antiseptic and local anesthetic properties. The Hexylresorcinol helps eliminate viral and fungal infections.

Herbal Throat Lozenges

Otaci Lemon Honey Lozenges

Lozenges rich in vitamins with a fruity taste. Sweet / sugar free options.

Otaci Cherry Lozenges

Lozenges rich in vitamins with a fruity taste.

Otaci Orange Propolis Lozenges

Lozenges rich in vitamins with a fruity taste. Sweet / sugar free options.

Otaci Strawberry Lozenges

Lozenges rich in vitamins with a fruity taste.

Expertise in contract manufacturing:

Balance in various forms:

Waste Disposal

Our companies comply with GMP and ISO 14001 standards in waste disposal. ISO 14001 certification which is a globally recognized management system standard published by ISO (International Organization of Standardization). It provides a tried and tested framework for ensuring regulatory compliance. Implementing an Environmental Management System is a solid way to identify and control the effects of our company on the environment. However, this is only the first step in our approach to waste disposal. We take proactive steps and make further investments to assure we are not only in compliance, but also a visionary in this area. We have made continuous investments in waste treatment and solvent recycling as well as organising internal competitions amongst our employees to find innovative solutions to waste disposal methods.

Sustainability at Kurtsan Holding

We prioritize giving back to people and nature above all. We aspire to enhance nature with technology, and in doing so, use green, herbal and natural ingredients in our cosmetics, vegan certified ingredients to minimize our impact on other living creatures and dispose of waste in least harmful ways possible. Furthermore, we have been supporting education by funding university students with needs for over three decades and empowering women at our workplaces since the birth of our company. We separate our sustainability objectives under nature, waste disposal, education, gender equality and quality with equal emphasis on all.

Nature

We aspire to use natural ingredients, not only because it is our heritage from our founder Niyazi Kurtsan, but also due to our understanding of business ethics. We have received various certifications and awards to cement our sustainability mentality such as European Vegetarian Union Vegan Certifications, ISO Istanbul Industry Organisation Large Scale Businesses Innovative Nature Friendly Finalists, Turkish Nature Preservation Organisation Green Point Gold Awards and GMP (Good Manufacturing) Certifications.

Education

Kurtsan Science, Art and Education Fund naturally existed since the formation of Kurtsan Holding. However, it was officially registered in 1993 with the understanding that science and art are the strongest foundations in educating and exalting people in serving the society and humanity, and contributing to social and cultural development of society. Every year we add between fifteen to thirty new students to our list of scholarships and we selectively choose high calibre students whom may not have the chance to attend university in absence of this support. We thrive to make a real impact in our world with our almost one thousand graduates.

Gender equality

We aspire to providing gender equality with the vision deriving from our second generation partner Meltem Kurtsan who is also the honorary founding president of Womens' Entrepreneurship Association of Turkey. At our manufacturing facility in Bandirma, we are one of the very few companies in Turkey who has a majority in female employees with an approximate of 60:40 ratio. Similar ratio can be found throughout our offices. Besides, we understand that pay equality and women in higher levels of management are of serious concern and we are proud that our top management roles have been compensated with equal opportunities and positions covered by a similar if not larger ratio to our manufacturing facilities since 1990s.

Quality Policies

We have ISO 18001 Occupational Health and Safety Management Certification which is an international standard that provides a framework to identify, control and decrease the risks associated with health and safety within the workplace. Implementing this standard sends a clear signal to our stakeholders that we view employee's health and safety as a priority within our organisation.

The ISO 22000 family of International Standards addresses food safety management which we have also obtained. The consequences of unsafe food can be serious and ISO's food safety management standards help organizations identify and control food safety hazards. It maps out what an organization needs to do to demonstrate its ability to control food safety hazards in order to ensure that food is safe.

ISO 13485, Medical devices – Quality management systems – Requirements for regulatory purposes, is an internationally agreed standard that sets out the requirements for a quality management system specific to the medical devices industry. We also fulfill the requirements for this standard accompanied by its certification.
